Online Clearance -

The online store clearance section now has new clearance "subcategories". Members will now find it easier to navigate using the various category tabs.

Distributor Price Increases -

As previously indicated, we are seeing a majority of importers increasing the cost of goods by a minimum of 10% (greater on some items). All current stock at the VRA was purchased prior to this and we will not be increasing pricing until new/replacement stock arrives. For any members looking for items for future use, now is the ideal time to grab them - prior to any increase..
